

Sant'Agata Villas

LIXOURI KEFALONIA

Our Environment is considered a critical social and economic asset that needs to be addressed seriously if we are to preserve the quality of life for ourselves and the generations to come.

In 2021, Hotel Sant' Agata Villas, along with completing construction, took the first steps towards environmental protection by respecting people, nature and cultural aspects of Kefalonia, our unique island, and showing our guests how we demonstrate our commitment to protect Kefalonia's unprecedented nature, culture and civilization for years to come.

Hotel Sant' Agata Villas have responsibility and commitment to work with the supply chain and other local stakeholders for a more sustainable and greener future. Reducing energy demands, waste, and water usage results reducing our environmental footprint and providing a good example to our hotel team and collaborators.

Sustainability also means to take care of our employees, the heart of our operations, improve customer satisfaction and staff morale, and enhance our operations overall.

Our **Sustainability Policies** consist of:

- **Environmental Vision**
- **Environmental Goals**
- **Human Resources Commitment**
- **Quality Commitment**
- **Health & Safety Commitment**
- **Community Commitment**
- **Human Rights Commitment**
- **Child Protection**

*With due respect to our ultimate asset, the **Environment***
